Email: anandazahir12@gmail.com

Hello! I am Ananda Muhammad Zahir, a fresh graduate in Computer Engineering from Diponegoro University with practical experience in web development, focusing on front-end engineering. I have worked as a front-end developer on projects like Zoopedia, an application providing animal information, and SIMGD, a management system for container rentals, enhancing operational efficiency. Additionally, I developed SIAMIMSAJEN, an academic information system for MIM Sajen, With strong skills in React, JavaScript, and TailwindCSS, also typescript, combined with organizational experience, I am adept at building responsive, user-friendly interfaces and delivering high-quality web solutions. I am currently exploring opportunities in front-end development and software engineering.

EXPERIENCE

PT Garbantara Depo, Semarang

June 2023 - August 2024

Frontend Developer

- Build responsive, user-friendly interfaces using modern frameworks.
- Work with designers and back-end developers to integrate designs and APIs.
- Write clean, efficient code and conduct code reviews.

GDSC, Semarang

November 2022 - November 2023

Google DSC Diponegoro University Creative Media Division

- Manage Diponegoro University GDSC social media
- Post a poster for the Diponegoro University GDSC event
- Documenting Diponegoro University GDSC activities

Jakarta Smart City, Jakarta Raya

December 2022 - February 2023

Network Field Engineer

- Set up, configure, and maintain network hardware and structured cabling.
- Diagnose and resolve network problems to minimize downtime.
- Perform hardware/software updates and optimize performance.
- Keep detailed records of network configurations and provide reports.
- Collaborate Work with IT teams, vendors.
- Travel for installations and provide remote support as needed.
- Technical Support for office

EDUCATION

Diponegoro University

August 2020 - November 2024

Bachelor's degree, Computer Engineering

- Grade: 3.46

SKILLS

Hard Skills

- Responsible
- Good at team work
- Good at communication

Soft Skills

- FrontEnd Developer
- React.js
- Next.js

- Javascript
- PHP
- Laravel
- MySQL

PROJECTS

SIMGD (Sistem Informasi Manajemen PT Garbantara Depo)
<https://www.simgd-garbantara.com>
SIMGD (Management Information System for PT Garbantara Depo) is web based app to address the challenges faced by PT Garbantara Depo in managing transaction and container data. The system aims to streamline data storage, improve communication, and facilitate report generation for operational PT Garbantara Depo. By replacing conventional methods like messaging apps and physical documents, SIMGD enhances data management efficiency and supports better decision-making within the company.

UI Nanda
<https://ui-nanda.vercel.app/>
UI Nanda is website that can elevate Next.js projects with a collection of handcrafted components built using TailwindCSS and TypeScript, designed for simplicity, seamless integration, and clean, minimalistic design.

VOLUNTEERING

Himpunan Mahasiswa Teknik Komputer
Student Mentor

- Contribute to delivering material including organizational material and expertise in the Computer Engineering Department.

September 2021 - March 2022

Badan Eksekutif Mahasiswa Universitas Diponegoro

September 2021 - March 2022

Creative Designer At Grand Sports Festival

- Contribute to design social media post also create a poster about this festival.
-

Badan Eksekutif Mahasiswa Universitas Diponegoro

September 2021 - November 2021

Creative Designer At Scientific Festival

- Contribute to design social media post also create a poster about this festival.
-

Student Executive Board of Engineering Faculty (BEM FT), Diponegoro University

June 2022 - August 2022

Creative Designer At ODM FT

- Contribute to design social media post also create a poster about this festival.
